Base Architecture  
PO Box 165  
Grange QLD 4051

To whom it may concern,

**RE: BASE ARCHITECTURE REFERENCE**

On behalf of Queensland X-Ray, I am delighted to take this opportunity to recommend Base Architecture.

Queensland X-Ray engaged Base Architecture to initially undertake the Mater Medical Centre (PET) Imaging project and recently ongoing development of our new Sunnybank suites.

We have been more than pleased with the exceptional service Base provided right throughout the project and the quality of architectural and interior design consultancy and expertise.

Director Shawn Godwin gave helpful and constructive advice throughout the project and our new specialist facility is now a place our patients feel comfortable in, often giving praise for the stylish looks and warm environment. Our staff are also pleased with the ascetics and functionality of the working space.

So much so that I have personally asked Base Architecture to commence design for the Queensland X-Ray facility in the Mater Misericordiae Hospital Medical Suites in Townsville later this year.

Yours sincerely,

**John Scott**  
Projects Officer  
Queensland X-Ray
