

'Shack' project under way

WORK has started on a Sunshine Coast development that has secured 16 sales to date worth just under \$9 million.

The \$36 million Kula Beach Shacks on Coolum development is being built on a 1.47ha beachside site. Once complete it will feature 62 beach houses. Four architects collaborated to develop the masterplan for the site.

The project is being developed by

Turrisi Properties. Base Architecture, Architectus, Bligh Voller Nield and Davis Sommerville have been involved in the design of the project.

Shawn Goodwin, of Base, said the group had aimed to modernise the beach houses of the 1960s and 1970s.

The development is expected to be completed in 2010.

It will also have a central recreation area.
