### **Reference: Shawn Godwin – Base Architecture Director**

To whom it may concern,

My name is Joshua Neale and I am a senior Structural Engineer and partner of Westera Partners Pty Ltd. I have worked with Shawn Godwin and his team at Base Architecture for over 4 years. During this time I have witnessed Shawn's business grow and increase from strength to strength while the construction industry as a whole has struggled considerably.

Shawn Godwin is a man of incredible integrity and creativity. He is passionate about the profession he works in and ensures he contributes skillfully to Architecture in Brisbane with every opportunity he receives. Shawn's success can be attributed to his genuine and honest nature as well as a desire to see current boundaries within his profession increased. Shawn has surrounded himself with like minded creative staff and encourages them to explore and chase their dreams. In doing so, the work produced by Base Architecture is leading the current Architectural field and is proven by the numerous Architectural awards they have won.

I have witnessed firsthand Shawn's character and personality as he treats clients, colleagues, staff, consultants and contractors alike and with the utmost respect. He is always genuine and compassionate, while also being assertive and proactive in difficult situations. Shawn has displayed an ability to encourage brilliance in his staff through providing a safe and positive environment to work and brainstorm together.

It is in my opinion that Base Architecture is a prime example of a business that has succeeded within the times of the global financial crisis. Through creativity, hard work, discipline and integrity he has forged ahead and provided employment and opportunities, not only for the staff within his firm, but for all those affected by his work. Shawn is a great ambassador for Brisbane business and should be recognized accordingly.

If you have any queries regarding the above, please do not hesitate to contact me.

Kind regards
